Finally, these are some simple observations that are important.

- When we add any two natural numbers, we get a natural number. Similarly when we multiply any two natural numbers, we get a natural number.
- When we add any two whole numbers, we get a whole number. Similarly when we multiply any two whole numbers, we get a whole number.
- When we add a natural number to a whole number, we get a natural number. When we multiply a natural number by a whole number, we get a whole number.

NOTE

- Any number multiplied by zero gives zero.
